

Coulsdon and Other Commons Risk Register

24 June 2025

Risk score indicator key.		
		
RED	AMBER	GREEN

Risk code	Risk title	Current risk score	Current risk score indicator	Risk Approach *	Target risk score	Target risk score indicator	Direction of travel (over the past year)
ENV-NE-COC 009	Decline in condition of assets	16		Reduce	12		Constant
ENV-NE-COC 002	Negative impacts of visitor pressure	12		Accept	12		Constant
ENV-NE-COC 004	Negative impacts of development and encroachment	8		Reduce	6		Constant
ENV-NE-COC 005	Negative impacts of pests and diseases	8		Reduce	6		Constant
ENV-NE-COC 008	Pollution	8		Reduce	4		Constant
ENV-NE-COC 001	Budget pressures	6		Accept	6		Constant
ENV-NE-COC 006	Adverse impacts of extreme weather and climate change	6		Accept	6		Constant

* **N.B.** Risks with an identical current and target score are those which we have mitigated to the lowest level possible at present. However, we continue to undertake a range of actions to maintain them at their current score, keep them under continual review, and seek opportunities to reduce the level of risk.
