## Notes:

- 1. Town Planning the favourable outturn was mainly due to salary underspends and various running budget savings for printing, computing & communications and advertising.
- 2. Building Control the year end overspend was due to a shortfall in Building Control fees income resulting from a downturn in the economy and competition from approved inspectors.
- 3. Traffic Management the favourable outturn was due to additional income from hoardings & scaffolding licences and road closure fees, and various savings on running expenses budgets.
- 4. Drains & Sewers the favourable outturn was due to additional income and savings on repairs and maintenance expenditure work due to a moratorium on street works during the Olympics.
