

Appendix 2

Barbican Estate Electrical Vehicle Charging Points Working Party

Terms of Reference

Purpose of working group is to determine the most suitable options and solutions for introducing electric vehicle charging points to the Barbican Estate car parks. The solution will need to:

- Meet the needs and requirements of residents charging their vehicles
- Be future-proofed to accommodate continued growth in electric vehicles
- Be self-financing
- Easy to manage with need for minimal oversight and input from the BE office

Key issues to be considered and resolved include:

1. What do residents require to support the shift from internal combustion engines (ICEs) to electric vehicles (EVs)?
2. What is the most suitable infrastructure for the BE?
3. What is the most suitable way of allocating bays to EV users and charging points?
4. What is the best pricing mechanism to recover costs?
5. Use a 6 month pilot or trial period to test out the different models/options.
6. How will it be delivered?
7. What are the timescales?
8. Ensure accessibility of EV bays is considered
9. How will the pilot/trial be monitored and evaluated?
