## **Appendix 2**

## Barbican Estate Electrical Vehicle Charging Points Working Party

## **Terms of Reference**

Purpose of working group is to determine the most suitable options and solutions for introducing electric vehicle charging points to the Barbican Estate car parks. The solution will need to:

- Meet the needs and requirements of residents charging their vehicles
- Be future-proofed to accommodate continued growth in electric vehicles
- Be self-financing
- Easy to manage with need for minimal oversight and input from the BE office

Key issues to be considered and resolved include:

- 1. What do residents require to support the shift from internal combustion engines (ICEs) to electric vehicles (EVs)?
- 2. What is the most suitable infrastructure for the BE?
- 3. What is the most suitable way of allocating bays to EV users and charging points?
- 4. What is the best pricing mechanism to recover costs?
- 5. Use a 6 month pilot or trial period to test out the different models/options.
- 6. How will it be delivered?
- 7. What are the timescales?
- 8. Ensure accessibility of EV bays is considered
- 9. How will the pilot/trial be monitored and evaluated?
