INSIGHT LUNCH SESSION

Insight Lunch – Cybercrime Awareness & Prevention

Target Audience
This session is designed for anyone who uses the internet. Not for the IT engineer or Network Specialist. It is purely intended to provide members of staff the knowledge to protect themselves, their loved ones and the Corporation from possible cyber attack.

Speakers
DC Fred CRAWLEY.

Fred is the City of London Police principal trainer in the arena of Cybercrime and Security. He has 15 years experience as a Detective and has trained in excess of 1000 police officers in Cybercrime Awareness and Investigations.

Topics Covered
- *The first key element of the session will be an overview of the personal and professional cyber risks – how they happen.*

- *This will be followed by quick easy steps to maximise security in work and home networks – simply steps*

This is not a bored geeky input. It is a very dry subject but the session will be interactive and enjoyable. It is relevant to you either as a member of staff or more importantly to protect your family and friends.

Learning Outcomes
By the end of the session delegates will be able to list a number of different Computer scams
Delegates will be able to give an overview of how different attacks are conducted.
The session will equip delegates with the knowledge to minimise the chances of becoming a victim of Cybercrime and be able to offer some simply advice to family and friends.

Timings of the Session
The presentation will be an hour long beginning promptly at 12:30.

Lunch will be available from 12:00 and we will allow another 30 minutes at the end for those delegates who wish to stay and network with colleagues.

Max Participants
25
