Regulation No	<u>SUMMARY OF BUILDING REGULATIONS FUNCTIONS AND CHARGES</u>
5(1)	<p>6. The City of London Corporation has determined:</p> <ul style="list-style-type: none">a) plan charges for or in connection with the passing or rejection of plans of proposed building work deposited with them in accordance with Section 16 of the Building Act 1984;b) inspection charges for or in connection with the inspection of building work for which plans have been deposited in accordance with the Principal Regulations and with Section 16 of the Building Act 1984;c) building notice charges for or in connection with the consideration of a building notice which has been given to the City of London Corporation in accordance with the Principal Regulations; <p>The charges for the foregoing functions are as set out in the attached tables in Annex A.</p>
5(2)	<p>7. The City of London Corporation is also authorised within its Charges Scheme to make a charge in relation to a request for advice as regards any particular case where such a charge is made in anticipation of the future exercise of its chargeable functions in relation to that case (referred to as “chargeable advice”); save that no charge is to be made for the first hour of time spent by an officer in providing such chargeable advice.</p>
6(3)	<p>8. This Charges Scheme has been fixed such that its objective is to ensure that, taking one financial year with another, the income to be derived by the City of London Corporation from performing chargeable functions and providing chargeable advice (referred to as “chargeable income”) as nearly as possible equates to the costs incurred by the City of London Corporation in performing chargeable functions and providing chargeable advice (referred to as “chargeable costs”). At the end of the financial year within which the City of London Corporation first made this Charges Scheme and of each subsequent financial year, the City of London Corporation will conduct a review of the level of charges set out under this Charges Scheme for the purpose of achieving the Charges Scheme’s objective above.</p>
6(2)	
6(4-6)	<p>9. Immediately following the review of the level of charges, the City of London Corporation will prepare a “building control statement” setting out as regards the financial year to which it relates, the chargeable costs, the chargeable income and the amount of any surplus or deficit. Such “building control statement” will be approved by the City of London Corporation’s Section 6 Officer and will be published not more than six months after the end of the financial year to which the statement relates.</p>
6(7-8)	<p>10. Each charge determined within the Charges Scheme has been related to the costs of providing building regulation services in relation to particular building work or building work of particular descriptions having regard to the objective outlined in clause 8 above. Where this Charges Scheme is first made and takes effect at any time other than the beginning of a financial year, the City of London Corporation will have regard to any estimated</p>

7(1-2)	11. The costs of providing City of London Corporation building regulation services in relation to chargeable functions or chargeable advice has been calculated using the hourly rate at which the time of its officers will be charged and the factors which have been taken into account in estimating the time required by its officers for performing a chargeable function or providing chargeable advice (in relation to particular building work or building work of particular descriptions).
7(4)	12. The hourly rate of the City of London Corporation building regulation officers is set out herewith: £104.

7(5)	14. In calculating the costs and in estimating the time required by its officers for performing a chargeable function or providing chargeable advice (in relation to particular building work or building work of particular descriptions), both in relation to standard and assessed charges, the City of London Corporation has taken some or all of the following factors into account: <ul style="list-style-type: none"> a) the existing use of a building, or the proposed use of the building after completion of the building work; b) the different kinds of building work described in regulation 3(1)(a) to (i) of the Principal Regulations. 7(5)	15. In calculating the costs and in estimating the time required by its officers for performing a chargeable function or providing chargeable advice (in relation to particular building work or building work of particular descriptions), in relation to assessed charges for individual projects, the City of London Corporation will take some or all of the following additional factors into account in assessing the charges <ul style="list-style-type: none"> f) the nature of the design of the building work and whether innovative or high risk construction techniques are to be used; g) whether the person who intends to carry out part of the building work is a person named in a self-certification scheme or list of exemptions under schedule 2A of the Principal Regulations; or is carrying out the descriptions of work where no building notice or deposit of full plans is required under schedule 2B of the Principal Regulations both as mentioned in building regulation 12(5), or is a person who is registered
